

Enroll Now DELAWARE PUBLIC HEALTH SERIES

Education...How and When You Want It

*EDISCO by Quality Insights and the Delaware Division of Public Health have partnered to provide a series of interactive and engaging e-learning courses to the practices, health systems, and federally qualified health systems in Delaware. The following courses are offered at **NO COST** through June 30, 2022. Additional courses are available for a fee.*

- * **1. Colorectal Cancer (CRC) Screening:** Looking to engage your entire care team on the essentials of CRC screening and options for patients? Take this course for great tips on implementing CRC screening!
- * **2. Diabetes: Awareness to Action:** An in-depth review of Diabetes Self-Management Education and Support (DSMES) with inclusion of diabetes prevention strategies.
- * **3. Health Literacy:** If your practice is striving to embrace diversity and reach all populations, this course is for you!
- * **4. Healthy Heart Ambassador Blood Pressure Self-Monitoring:** Learn more about the new DPH hypertension lifestyle change program, including eligibility and how to refer to the program.
- * **5. Lung Cancer Screening:** Look at risk-factors, benefits of early screening and diagnosis, shared decision making, as well as work flow strategies to increase your lung cancer screening rates.
- * **6. Medication Therapy Management:** Improving medication adherence is an important way to increase quality and reduce cost. Learn how collaborating with pharmacists to provide medication therapy management can greatly impact patient adherence.
- * **7. Motivational Interviewing:** Learn how to expand the role of your team and encourage enhanced communication with patients.
- 8. National DPP Coverage Toolkit Overview:** Learn more about the National Diabetes Prevention Program (National DPP) Coverage Toolkit, which offers resources that support increased awareness and referrals to the National DPP lifestyle change program.
- * **9. Tobacco Cessation:** Learn how to support your patients' efforts to quit tobacco and improve their chances for success.

Continuing Nursing Education (CNE) and Continuing Medical Education (CME) credits are offered with these courses at **NO COST!*
